Volume 2 October 1976

General Services Administration Federal Supply Service

GSA SUPPLY CATALOG

OCTOBER 1976

VOLUME 2

This publication is a supplement to the October 1975 issue of Volume 1 of the GSA Supply Catalog, which should be retained for use as the basic reference to the GSA stock program.

A current pricelist, item changes, and new item descriptions are included in this volume.

A new Federal Supply Schedule index is also provided in this publication. The new index supersedes all schedules information appearing in Volume 1 of the October 1975 GSA Supply Catalog and all previous issues of this publication.

HOW TO USE THIS CATALOG

If you know the National Stock Number (NSN) of an item . . .

- 1. Find the number in the NSN index in this issue to obtain price and ordering data.
- 2. If descriptive information is needed, refer to the indicated page numbers in this catalog or in the GSA Supply Catalog, Volume 1, October 1975.
- 3. Consult Section 2 for possible descriptive and/or standard pack changes.
- 4. For requisitioning information, see this catalog and page ixxxi of the GSA Supply Catalog, Volume 1, October 1975.

If you know the item name or you require a service . . .

- 1. Find the item or service in the alphabetical index in this catalog or in the GSA Supply Catalog, Volume 1, October 1975.
- Index will refer to page location of stock item in this catalog or Volume 1, or will provide the Federal Supply Schedule number which then may be found in the listing of schedules.
- 3. For ordering data see Section 3 (schedules) on page 24 in this Volume 2.

NOTE TO DoD ACTIVITIES

GSA supply publications are prepared for civilian agencies. They are issued to DoD activities for informational purposes only. DoD activities should refer to their respective service Management Data Lists (ML's), other service supply publications, or internal issuances before processing requisitions to GSA.

WHAT IS THE FEDERAL SUPPLY SERVICE?

The Federal Supply Service (FSS), one of the four major line services of the General Services Administration (GSA), is the primary source of procurement and property management for Federal civilian agencies and provides numerous other services and functions.

FSS is responsible for the economical and efficient procurement and supply of a wide range of common-use, commercial type items for the world's largest consumer of these goods, the Federal Government. It accomplishes this task by virtue of several selling programs which assure convenient and money-saving service, regardless of order size. Not only does Federal Supply meet the Government's buying needs, it also sets standards of

quality and performance in all aspects of the supply process—from the actual purchase to consumer delivery.

In addition to the supply function, various services, including the maintenance of a 68,000-vehicle motor pool and negotiation of public utility contracts, are offered to Federal agencies. Other services, such as maintaining emergency defense supplies and assisting in natural disaster relief, aid the entire community.

FSS is also involved in systems designed to enhance product development and to offer agencies the best possible variety of goods to meet operating needs.

Services SELF-SERVICE STORES

For day-to-day needs, GSA Self-Service Stores offer convenient, walk-in shopping. With 73 stores coast-to-coast, FSS is able to fill customer orders over the counter at considerable savings through volume purchasing.

Besides providing fresh, quality merchandise and the latest products from depot stock and Federal Supply Schedule contracts, GSA Self-Service Stores offer a spe-

cial buying service to help eliminate time-consuming visits to local commercial stores.

What makes this operation distinctive is its convenient charge service which allows agencies to reduce and simplify their paperwork. Applications for charge plates are available at GSA Self-Service Stores or from regional Customer Service Representatives (see page xiii for CSR listing).

TRANSPORTATION AND PUBLIC UTILITIES

Federal Supply's Office of Transportation and Public Utilities makes a wide range of services available to Federal civilian agencies. The Transportation Division is designed to provide an economical and efficient system for transportation and traffic management. It accomplishes this mission through a variety of programs which offer assistance in passenger and freight traffic management, travel and relocation allowance, and household and personal effects management. The Motor Equipment

Division, in addition to operating the 74,000-vehicle interagency motor pool, offers educational and training programs, defensive driver training courses, and management studies to insure optimal use of each Government-owned vehicle. Negotiation of public utility contracts and consultations on public utility management problems are among services provided by the Public Utilities Management Division.

Interagency Motor Pools

Government agencies are provided the use of various types of vehicles through the centrally managed facilities of the Interagency Motor Pools system.

RESERVATIONS—Users must make reservations for the use of motor pool vehicles during business hours at least 24 hours in advance.

RENTAL—Commercial vehicles may be obtained under a GSA commercial car rental contract if a motor pool vehicle is not available. The Traveler's Pocket Guide (mailing code OOSS 7502) contains a listing of GSA contracts rental services. It can be obtained by calling M: 303–234–4195, FTS: 234–4195.

turnorization—As evidence of authority to obtain tor pool vehicles, motor pool personnel will accept of the following documents which must show a ed Office Address Code (a six-digit number) and, if uired by user's agency, a chargeable account symbol: Official Travel Authorization specifying use of Governit vehicles; 2) Letter of Authority; or 3) Purchase er.

(NOTE: By prior arrangement with Motor Pool personnel, Standard Form 46, U.S. Government Motor Vehicle Operator's Identification Card, can be used to obtain a vehicle in the local area.)

Employees in travel status for a short period with an official travel authorization specifically authorizing the use of Government-owned vehicles and a valid state, District of Columbia, or Commonwealth operator's permit are not required to have an SF 46 to obtain motor pool vehicles.

OPERATOR RESPONSIBILITY—As provided by law, the use of Government-owned vehicles is restricted to official purposes only. The operator of an interagency motor pool vehicle is responsible for the proper use, servicing, and protection of the vehicle in his custody and for reporting any accidents in which the vehicle is involved. Necessary operating and servicing instructions are in the Operator's Packet in each motor pool vehicle.

OFFICE OF PERSONAL PROPERTY DISPOSAL

Federal Supply's Office of Personal Property Disposal is responsible for assisting in the reutilization and sale of Government property no longer needed by owning agencies and for developing sources for rehabilitation of this property.

Through the Property Rehabilitation Program, FSS provides for the maintenance, repair, rehabilitation, and

reclamation of in-use and excess personal property. GSA awards competitively advertised contracts to over 2,000 small business firms, including minority-owned firms, to perform these maintenance and repair services.

These and other Personal Property Disposal services are available through GSA regional offices by contacting the FSS Personal Property Division.

PUBLICATIONS

Production of informative publications is another service provided by FSS. These publications—listed on page iii and iv of the 1975 GSA Supply Catalog, Volume 1—are available to authorized users without charge by mailing a completed GSA Form 457 (FSS Publications Mailing List Application) to GSA's Centralized Mailing

Lists Services (CMLS), Region 8. Forms may be obtained by calling CMLS on FTS 234–4195 or by writing to:

General Services Administration Centralized Mailing Lists Services Building 41, Denver Federal Center Denver, Colorado 80225

Selling Programs

The Federal Supply Service has four selling programs through which some \$2 billion in goods and services is provided to Government agencies annually. They include:

- Self-Service Stores (See Services, page iv)
- FSS Stock Program
- Federal Supply Schedule Program
- Special Buying Program

FSS STOCK PROGRAM

The Federal Supply Service maintains a \$200 million inventory of goods which it distributes through 22 supply depots and 71 Self-Service Stores. In order to manage and control the thousands of items contained in the GSA system, items are assigned a 13-digit National Stock Number (NSN) which classifies each one into a class of similar items, and these classes, in turn, into

commodity groups. The NSN must be used when ordering any item from the stock program.

Requisitions are processed in their respective regional offices, and most are filled with items stored in the supply depots. These items have been purchased in accordance with carefully developed criteria and a stringent quality control program. (For ordering information, refer to the section on Requisitions.)

FEDERAL SUPPLY SCHEDULE PROGRAM

The Federal Supply Schedule Program provides Federal civilian agencies with a wide variety of supplies and services not obtainable through the stock program. It is designed to allow Government agencies the option of ordering standard commercial items in small quantities, while still enjoying discounts associated with volume buying. The schedule program accounts for the largest proportion of FSS sales—in excess of a billion dollars annually.

Under the schedule program, GSA enters into contracts with commercial firms to provide supplies and services at stated prices for given periods of time. Federal Supply Schedules are published to provide ordering data for these contracts. Schedules are made on the basis of either single or multiple awards. Under multiple award schedules, several contractors supply comparable items for delivery to the same geographic area. In such cases, contractor publications must be used with the schedule to determine the characteristics and prices of the items involved. Some competitive-award schedules have illustrative contractor publications which may be helpful in selecting items.

Schedules contain the names and addresses of the contractors, delivery or shipping time, prices, and other ordering information (such as the minimum and maximum dollar limitations on the amount that may be purchased under one order). Customer agencies place orders directly with the contractors. Contractors deliver the orders to the agencies whose ordering offices pay promptly upon receipt of the proper documentation.

The schedule states whether GSA provides source inspection of the merchandise or if inspection is the responsibility of the receiving agency.

Each schedule contains a provision which identifies specific agencies, in designated geographic areas, that are required to use the established contracts as mandatory users. Use of schedules is optional for agencies authorized to purchase through GSA, in accordance with the "nonmandatory users" provision; acceptance of such orders is optional with contractors, although they usually honor orders from nonmandatory users. Most schedules are national in scope and include the 48 contiguous states and the District of Columbia. Hawaii, Alaska, and the Commonwealth of Puerto Rico also may be included. FSS also provides regional schedules for supplies and services available for specific geographic areas.

Improved Federal Supply Schedule Program, Volumes 3 and 4 of the GSA Supply Catalog, is an ordering system incorporating selected competitive-award schedules. Under this system, agencies submit requisitions to GSA, and items are shipped from the contractor to the consignee. GSA pays the contractor and bills the agency.

To obtain Federal Supply Schedule Program publications, enter the applicable mailing code on GSA Form 457 and send it to the GSA Centralized Mailing Lists Services (CMLS) in Denver, Colorado. Call or write to CMLS for copies of the form. Emergency requests for copies of schedules should be ordered from:

GSA—CMLS (8FFS) Denver, CO 80225 Telephone: 303-234-4195

NOTE: FSS has established an Information Center to answer general queries on the Federal Supply Schedule Program. The telephone number is 703–557–8177. Military activities may use AUTOVON 225–9684 to call the Information Center. For technical information on contracts in schedules, write or call the contracting officer shown under the ordering instructions in each schedule.

SPECIAL BUYING PROGRAM

"ows an agency to stock or schedig Program, FSS can procure a definite quantity of items or items with a known recurring need, and have the order sent directly to the requisitioning agency.

Requisitioning and Delivery REQUISITIONS

The Federal Standard Requisitioning and Issue Procedures System (FEDSTRIP), provides the basis for processing civil agency requisitions through the use of automatic data processing equipment (ADPE). FEDSTRIP, which is compatible with the Department of Defense's MILSTRIP, has four primary functions:

- Processing both single and multi-line manually or machine-prepared requisitions or proposed returns of items purchased from GSA;
- (2) Requesting and receiving status information on requisitions in process;
- (3) Filling orders under a standard priority system:
- (4) Utilizing pre-established codes to represent information contained on normal requisitions.

Standard Form 344 (Multiuse Standard Requisitioning/Issue System Document), may be used as a requisition, followup, or cancellation for any given order. SF 344 can be ordered through GSA and is listed on page 270 of the October 1975 GSA Supply Catalog, Volume 1. Emergency orders, however, may be telephoned to GSA if the customer has complete FEDSTRIP/MILSTRIP ordering information. In these cases, no confirming requisition is to be submitted. Additional information, including explanations of the various FEDSTRIP forms and codes, is contained in the FEDSTRIP Operating Guide (mailing code OFOG—0008) and may be obtaine from the GSA Centralized Mailing Lists Services (CML: Denver, Colorado, 80225, telephone 303—234—4195.

DELIVERIES

For most deliveries, GSA selects the mode of transportation and ships to the location specified in an agency's order on an f.o.b. destination. The f.o.b. destination includes payment of line haul transportation charges, but does not include payment of detention, redelivery, storage, consignment, extra labor for unloading, or any charges caused by the consignee and not authorized by GSA. Where approved, GSA movement documents (GBL) will authorize inside delivery service at GSA expense. Inside delivery service does not include payment for extra labor to unload at destination. When it is more economical to the Government, deliveries may be made directly to the customer agency from the supplier. Questions concerning merchandise received by direct delivery should be referred to the GSA regional office which directed the shipment.

COMPLAINTS—Shipments should be verified for damage, shortage, or overage, and to insure that correct items have been received. If any of these problems occur, submit SF 361 and/or SF 363 for transportation discrepancies, or SF 364 for shipping (item) discrepancies to the GSA regional office which made or directed the shipment (forms on page 270 of the October 1975 GSA Supply Catalog, Volume 1).

When the quality of items ordered does not satisfy a specific requirement, the ordering office should notify

the GSA regional office in the area in which the materic is located. For these complaints, use SF 368, Qualit Deficiency Report (page 270, Volume 1).

Merchandise returns may be authorized by GSA for errors in requisitioning or shipping, frustrations in overseas shipments, or discontinued need for the item.

Personnel considering merchandise returns must comply with the regulations cited in the FEDSTRIP Operating Guide and their own agency directives, and must have GSA approval before returning items.

NOTE: The following is an update of information cortained on page lxxxiii of the October 1975 GSA Sup Catalog, Volume 1:

Unneeded Stock Items (GSA Credit Returns Prograi FPMR 101–27.5)

- (1) Minimum dollar value per line item based on current Supply Catalog prices shall be:
 - (a) \$50 for FSG 51 and 52 items.
 - (c) \$100 for items in all other Federal Supply Groups and Classes except for FSG 89, and FSC's 2610, 6630, 6640, 7540, and 8115 which shall be considered excess and processed in accordance with FPMR Part 101-43.

GSA Regional Offices

GSA has ten regional offices serving defined geographic areas of the United States (see map). Listed are the addresses (mailing and cable) to which orders or requisitions and inquiries should be sent. Routing identifiers are listed for the convenience of ordering personnel in transmitting requisitions, followup inquiries, or cancellations in FEDSTRIP/MILSTRIP format. Emergency telephone numbers include those for normal working hours, domestic and export orders, and off-duty hours including weekends and holidays.

Orders should be transmitted to the GSA regional office servicing the geographic area in which the consignee is located, unless Federal Supply Service officials specifically direct otherwise.

Customer Service Representative Program

Customer Service Representatives (CSR's) are assigned to each Federal Supply Service (FSS) regional office and in certain other locations. CSR's are available to provide seminars for either specific or general discussion on any phase of support offered by FSS. They make periodic liaison visits to major installations within their areas of responsibility and can make special visits when conditions warrant. For routine information on orders placed, or submission of emergency orders, see page xil for applicable telephone numbers.

Section 2—Descriptive

This section contains new items, revisions, and standard pack changes to be added to the October 1975 Volume 1, Section 2. For prices of new items, see the NSN index which begins on page 55.

NEW ITEMS

GROUP 39

CLASS 3920

WHEELBARROW

Contractor's, general-purpose wheelbarrow with wheel guard. Sturdy wood frame. Easy-riding pneumatic rubber-tired disk wheel. Exception to Spec.: 4½ cu. ft. capacity. Type II, class 1, Fed. Spec. KKK-W-291.

3920-00-329-4303......EA

GROUP 42

CLASS 4210

HOSE, LINEN

Unlined linen firehose. Use with portable pumps, tank trucks, gravity systems, and helicopters. Normal working pressure up to 300 p.s.i. Mildew-resistant. Lightweight. Remains damp in use and will not

burn when dragged over hot embers. Brass rocker-lug couplings, 100-ft. length. 1½" inside dia. 9 NH threads per inch, National Standard Fire Hose Threads. For washers, see 5330-00-239-1873. Std. pack: 5. For. Serv. Spec. 183.

4210-00-973-9559 LG

CLASS 4240

SHELTER, FOREST FIRE

Emergency escape shelter for forest firefighters. Made of aluminum foil and glass cloth laminated material; pup tent shape. Approximately 6 ft. long, 4 ft. wide, and 3 ft. high. Complete with belt carrying case. Std. pack: 12. For. Serv. Spec. 5100-320.

4240-00-893-0099 EA

Servicing your requirement is our business and improving that service is our constant objective.

GROUP 45

CLASS 4510

SHOWER HEAD

Ball joint and rimspray. Noncorrosive. Made of brass, rubber, or plastic or in combination. ½" inside pipe thread. Removable water-saving orifice limits water flow to 2½ g.p.m. Std. pack: 12 and 144. Type I, class 2, Fed. Spec. WW-P-541.

4510-00-971-8228 _____EA

GROUP 48

CLASS 4820

VALVE, CHECK

Bronze swing check valve. 125 p.s.i. pressure. May be used in horizontal or in vertical position for upward flow. Restricts flow to one direction. 2" dia. Stå. pack: 10. Fed. Spec. WW-V-51.

4820-00-287-3098.....EA

GROUP 51

CLASS 5110

BAR, CHISEL

Double-beveled cutting edge. Chamfered striking end. 1" dia. across flats. 36" overall length. Std. pack: 6. Type I, size 4, Int. Fed. Spec. GGG-B-00101.

5110-00-240-6031 EA

CLASS 5120

BAR. SOCKET WRENCH HANDLE

Sliding T-handle bar. Consists of socket holder and steel 1 id. 1/10" outside dia. 8" long. Std. pack: 6 and 198. Type III, class 4, style A, Fed. Spec. GGG-W-641.

5120-00-243-2425 _____EA

BIT, SCREWDRIVER

Bit set and handle. Phillips cross-tip. Point size No. 1. \(\frac{1}{6}\)' tip width, 5" overall length. Std. pack: 50, 500, and 2,000. Type VIII, class 2, Fed. Spec. GGG-S-121.

5120-00-293-0197 _____EA

Brace bits. Hexagonal key. For driving or loosening hexagonal socket head screws. Tip width shown. Std. pack: 50 and 500. Additional pack in italics. Type II, class 4, Fed. Spec. GGG-S-1408.

BIT, SCREWDRIVER, COWL FASTENER

Chromium-plated, flat-tip. ¼" female socket. %2" tip width, 1½" overall length. Std. pack: 6 and 120. Type I, class 4, Int. Fed. Spec. GGG-B-001222.

5120-00-321-4508 _____EA

CLAMP, C

Regular throat. Consists of metal frame and screw with nonremovable slip bar type, 2" long handle inserted through the outer end of the screw. Maximum opening and throat depth indicated. Std. pack in italics. Type I, style 1, Fed. Spec. GGG-C-406.

Light service. Class A. 5120-00-203-6438.....12 x 3½"4..EA

Very light service. Class E. 5120-00-203-6439.....2½ x 2½".6/48...EA

CROWFOOT ATTACHMENT, SOCKET WRENCH

Chromium-plated. Open-end box. ½" square drive. Female drive opening at one end and slotted (open-end) 12-point double hexagonal socket at other end. 21½'16" wrench opening. Std. pack: 3 and 36. Type I, class 3, Fed. Spec. GGG-C-1507.

5120-00-184-8392.....EA

DRESSER, ABRASIVE-WHEEL

Hand abrasive-wheel dressers. Heattreated, high-carbon tool steel. Consists of dresser body, cutter set, and bearing assembly. Four cutters to set. Size of dresser and outside dia. of cutter set shown. Std. pack: 24. Fed. Spec. GGG-D-631.

5120-00-223-9952....0, 1¼"....EA 5120-00-287-4448....1, 1½"....EA

DRIFT, DRILL

Plain. For driving taper shank tools out of machine spindles, sockets, and sleeves. Drop-forged tool steel. One edge flat along length of taper and the other rounded full length of drift. Size No. 4. Fits Morse socket Nos. 4, 5, and 6. Std. pack: 6 and 96. Style A, Fed. Spec. GGG-D-641.

5120-00-224-8951EA

HAMMER, HAND

Blacksmith's hammer. Double-face. Two octagonal faces. Wood handle. Weighs 4 lbs. Std. pack: 18. Type X, Class 1, Fed. Spec. GGG-H-86.

5120-00-113-3616EA

HANDLE, EXTENSION WRENCH

For use on Type XV wrenches. Fits and engages the locking plunger on wrenches. Inside dia. 1". For wrench sizes 111/16 through 21/4". Std. pack: 12. Type XIX, Fed. Spec. GGG-W-636.

5120-00-288-7768EA

HANDLE, SOCKET WRENCH

Chromium-plated. Consists of detachable steel handle with hinged socket holder permanently attached to fork. 1" square drive. 22" long. Std. pack: 10. Type III, class 1, Fed. Spec. GGG-W-641.

5120-00-221-7988EA

HOLDER, SHEET METAL

Hole grip. Spring tension type. Forcepsoperated. Consists of two moving prongs operating with fixed pin. 0-1/2" clamp capacity. 1/4" rivet size. Std. pack: 1,000 and 2,000. Type I, class 2, Fed. Spec. GGG-II-575.

5120-00-293-3382 _____EA

JACK, HYDRAULIC, HAND

Remote-control. Consists of hand-operated hydraulic pump, separate ram, hydraulic hose assembly connecting the pump and ram, and solid plunger. Use in tight places or when multiple rams are required for lifting, pulling, or pushing operations. Use for pushing (raising) loads in a single direction. Maximum colapsed height and minimum extended height shown. Minimum capacity indicated. Std. pack: 1. Type I, class 1, style A, Fed. Spec. GGG-J-63.

15%" max., 214" min. 5120-00-293-0075....4-ton.....EA 5" max., 7" min. 5120-00-293-0078....10-ton.....EA

11½" max., 16¼" min. 5120-00-293-0077.....20-ton......EA 12" max., 17½" min. 5120-00-293-0076....10-tonEA

Self-contained (single base). Consists of single ram, detachable operating lever about 19" long, and center-hole plunger. Provides force in single direction only. Can be operated in vertical or horizontal positions. Weighs 30 tons. 13" max. collapsed height; 19" min. extended height. Std. pack: 1. Type I, class 2, style B, Fed. Spec. GGG-J-63.

5120-00-293-0554......EA

KEY, SOCKET HEAD SCREW

Hexagon, socket screw key, L type. Short series. High-grade steel. 1" across flats. Std. pack: 5 and 20. Type I, class 1, Fed. Spec. GGG-K-275.

LUBRICATION TOOL

For cleaning or freeing damaged pressure type fittings hydraulically. ½" dia., 5" long. Steel body. Std. pack: 12 and 144. Gaski-Ram-O Tool 1 or equal.

PUNCH, BLACKSMITH'S

Square-shaped. Suitable for punching, clearing, and enlarging holes in hot forgings. 16" hickory handle. 3" dia. Std. pack: 4 and 24. Type VII, class 2, Int. Fed. Spec. GGG-T-00563.

5120-00-197-9481......EA

SCREW STARTER, HAND

Screw-slot gripping mechanism. Includes 6" blade and plastic or metal handle. Use to start or remove straight-slotted screws from restricted places. %2" tip width. Std. pack: 6 and 180. Type III, Fed. Spec. GGG-S-121.

5120-00-288-8728_____EA

SCREWDRIVER, RATCHET

Common, straight. Consists of blade, handle, ratchet mechanism, and shifter. 6" blade length. \(\frac{5}{10}'' \) tip width. \(Std. \) paok: 12 and \(\theta 6 \). Type V, class 1, Fed. Spec. GGG-S-121.

5120-00-223-6873ICA

Replacement bit. For double spiral screwdrivers, Light duty. Approx. 3" long. Bit No. 3, %2" chuck dia. Std. pack: 50, 500, and 3,000. Type V, class 2, style 1, Fed. Spec. GGG-S-121.

5120-00-277-4580 _____EA

Screwdriver, offset. Consists of steel handle with reversible ratcheting mechanism and double-end nonremovable bit. Std. pack: 6, 72, and 288. Type III, Fed. Spec. GGG-S-1408.

Flat tip. $\%-\%_{10}$ " tip width, 4%" long. Small end 125 in,-lbs. Size No. 2. Class 1.

5120-00-106-4553EA

Cross tip (Phillips). 1%" blade. 3%" long. Small end 33 in.-lbs. Phillips double-end bits. Size No. 1, Class 2.

5120-00-892-5931 _____EA

SCREWDRIVER SET, JEWELER'S

Screwdriver set. Screwdriver consists of body, chuckjaw, binder nut, swivel knob, and blade. Blade withdraws by loosening binder nut. 0.055" tip width (5120-00-180-0727) and additional flat tip bit, 0.070" tip width (5120-00-293-2052). Std. pack: 6 and 144. Type I, Fed. Spec. GGG-S-1808.

5120-00-240-1544 EA

SCREWDRIVER SET, RATCHET, OFFSET

With removable bits. Screwdriver consists of handle with socket and ratchet mechanism in one or both heads. Set contains the following bits: 2 flat tips, ¼ and ¾" tip widths; 2 crosspoints, point Nos. 1 and 2; 10 hexagonal keys, 0.050, ¼6, 54, 54, 54, 54, 54, 14, and 5½ across flats; and 1 socket wrench adapter, ¾" male square. Std. pack. 12. Type I, Fed. Spec. GGG-S-1408.

5120-00-541-5702

SHOYEL, HAND

Molder's, open back. Square point. Tubular steel D-handle. Std. pack: 6. Size 2, Fed. Spec. GGG-S-326.
5120-00-188-8437 EA

WRENCH SET, PIPE

Internal gripping pipe. Serrated cam. For standard pipe only. Designed for pipe sizes %, ½, ¼, 1, and 1¼". Furnished with fabric or plastic wrap roll. Std. pack: 16. Type I, class 1, Fed. Spec. GGG-W-643.

5120-00-132-1283

SOCKET, SOCKET WRENCH

Spark plug-holding. 1/4" square female drive end, with a ¹³/₁₆" hexagonal male combination. Designed for installing and removing 18mm, spark plugs. 39'₁₆" overall length. Wrench opening 7'8". Std. pack: 6 and 20.

5120-00-199-6996 EA

Bolt clearance hole. Chrome-plated. Wrench openings indicated, Std. pack in italics. Type II, Fed. Spec. GGG-W-641.

# PRICE LIST AND NATIONAL STOCK NUMBER INDEX

This is a listing in National Stock Number (NSN) sequence of some GSA centrally managed, stocked, and issued items available from GSA supply distribution facilities.

Page/column numbers are provided for items appearing in Section 2, "Descriptive and Illustrative," of the October 1975 GSA Supply Catalog, Volume 1, Page/column numbers in bold-face type refer to new items in Changes to Section 2 in this Volume 2.

PRICES.—Prices quoted in this volume of the catalog are fixed, and will remain as such until notice is given. Prices are on an f.o.b. destination basis for surface transportation to consignees in the coterminous United

States, Hawaii, Puerto Rico, the Virgin Islands, and those portions of Alaska designated in FPMR E-130. Requirements for premium transportation must be paid for by the ordering activity. Prices in this catalog are applicable for export orders, except that transportation from the port of exportation to the consignee, and packing will be charged to the ordering agency.

UNIT OF ISSUE (U/I) DESIGNATIONS.—The designations shown in the table below are used in this index for the units of issue.

These designations should be used on all FEDSTRIP/MILSTRIP requisitions submitted to GSA:

AM Ampoule	CB Carboy	GPGroup	OT Outfit	SESet
ATAssortment	CD Cubic yard	GR Gross	OZ Ounce	SF Square foot
AYAssembly BABall	CECone CFCubic foot	HDHundred	PD Pad	SH Sheet
BDBundle	CKCake	HKHank	PGPackage	SKSkein
BEBale	CL Coil	JRJar	PM Plate	SLSpool
BFBoard foot	CN Can	KTKit	PR Pair	SO Shot
BGBag	CO Container	LBPound	PTPint	SPStrip
BKBook	CYCylinder	LGLength	PZPacket	SXStick
BLBarrel	CZ Cubic meter	LlLiter	QT Quart	SY Square yard
BO Bolt	DRDrum	MCThousand	RA Ration	TNTon
BR Bar	DZ Dozen	cubic feet	RL Reel	TO Troy ounce
BTBottle	EA Each	ME Meal	RMReam	TUTube
BXBox	FTFoot	MRMeter	RORoll	VIVial
CA Cartridge	GLGallon	MXThousand	SD Skid	YDYard

CATALOG ACTION CODES.—These codes serve to indicate the following conditions and apply only to this publication:

A (Add).—The NSN is added to this publication.

**C** (Change).—The NSN was changed to, or replaced by, the NSN provided.

D (Delete).—The NSN is deleted from this publication Where a substitute item is available, an NSN is provided. T (Terminal).—The item is in stock, but future procurement will not be made. Requisitions will be filled until stock is exhausted.

*(Asterisk).—Asterisks are used to indicate that the adjacent element of data has changed effective on the date shown on the front cover of this publication.

## Price Changes—January 1977

## SUPPLEMENT TO GSA SUPPLY CATALOG, VOLUME 2, OCTOBER 1976

Prices quoted in this Change Notice become effective January 1, 1977. Page and column numbers indicate the location of item descriptions, either in the Volume 1, October 1975 GSA Supply

Catalog or, when preceded by an asterisk (*), in the October 1976 Volume 2. Those catalogs should be retained as the basic references to stock item descriptions and prices.
